Gentlemen

Enclosed are the Operable Unit No 5 Human Health Risk Assessment Data Aggregation Meeting Minutes from our November 18, 1994, meeting

There were two open items resulting from the meeting which Diana Niedzwieki of the Colorado Department of Public Health and Environment (CDPHE) intended to refer to Joe Schieffelin. The first item, CDPHE confirmation of the streamline risk assessment approach to closure of the Old Landfill (IHSS 155 & 196) based on the Environmental Protection Agency guidelines for presumptive remedy will be discussed at a meeting scheduled to be held Monday, December 19, 1994.

The second item involves CDPHE confirmation of the Department of Energy (DOE) proposal to address the Surface Disturbance (IHSS 209) in the uncertainty portion of the risk assessment. The DOE is currently following this methodology in preparation of the risk assessment.

If you have any questions or concerns, please call Kurt Muenchow at 966-2184

Sincerely,

Steven W. Slaten
